FORM 2
MCH BUDGET DETAILS FOR FY 2010

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: DC

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 7,067,825

A.Preventive and primary care for children:

\$ 2,120,348 (30%)

B.Children with special health care needs:

\$ 2,120,348 (30%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 706,782 (10%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 5,300,869

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 0

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 5,288,000

\$ 5,300,869

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 12,368,694

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 100,000

c. CISS: \$ 105,000

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 3,700,000

f. EMSC: \$ 0

g. WIC: \$ 18,787,263

h. AIDS: \$ 0

i. CDC: \$ 4,800,750

j. Education: \$ 0

k. Other: \$ 0

\$ 0

\$ 0

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 27,493,013

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 39,861,707

4. **Section Number:** Form4_I. Federal-State MCH Block Grant Partnership
Field Name: AdminBudgeted
Row Name: Administration
Column Name: Budgeted
Year: 2009
Field Note:
Realignment of staff has caused CHA to properly change this Administrative Budget line. Some staff were performing administrative functions but were listed incorrectly as program staff. The budget was not reflected appropriately and is being corrected here. Ergo the reduction in other budget lines. In addition, local funds have been utilized to address many more personnel costs in the administrative area.
5. **Section Number:** Form4_I. Federal-State MCH Block Grant Partnership
Field Name: AdminExpended
Row Name: Administration
Column Name: Expended
Year: 2007
Field Note:
Administrative staff were removed from the MCH Title grant and funded via local dollars to allow for increases in program spending.

FORM NOTES FOR FORM 5

None

FIELD LEVEL NOTES

- Section Number:** Form5_Main
Field Name: PopBasedBudgeted
Row Name: Population-Based Services
Column Name: Budgeted
Year: 2009
Field Note:

Population based Services amountt decreased from 2007 to 2008 and then increased in 2009. This is due to the fact that the DOH is moving from a local health department focus to one more aligned with a state health department. Less direct serivces are being provided. Budget amounts for enabling services and infrastructure building increased as dollars are contracted out through RFAs and RFPs.

FORM 6

NUMBER AND PERCENTAGE OF NEWBORNS AND OTHERS SCREENED, CASES CONFIRMED, AND TREATED

Sect. 506(a)(2)(B)(iii)

STATE: DC

Total Births by Occurrence: 15,752

Reporting Year: 2008

Type of Screening Tests	(A) Receiving at least one Screen (1)		(B) No. of Presumptive Positive Screens	(C) No. Confirmed Cases (2)	(D) Needing Treatment that Received Treatment (3)	
	No.	%			No.	%

Screening Programs for Older Children & Women (Specify Tests by name)

- (1) Use occurrent births as denominator.
 (2) Report only those from resident births.
 (3) Use number of confirmed cases as denominator.

FORM NOTES FOR FORM 6

Source for occurrence births: State Center for Health Statistics, 2007 birth file - showing all births.

2007 birth file was linked to 2007 newborn metabolic screening file.

Column A data taken from the newborn screening records provided by Perkin Elmer Genetics, a laboratory in PA used by the District of Columbia.

Column B data provided by cumulative data set of all those screened who are born in 2007. Positive screens obtained from the last record on each child.

Columns C and D data are provided by the Newborn Screening Program. Some tracking information is missing for some of the tests.,

Of the 15,752 births in 2007, 914 occurred in out-of-state facilities. Of the population born in a DC birthing hospital (14,838) 96.9% newborns were screened for metabolic and genetic disorders.

FIELD LEVEL NOTES

1. **Section Number:** Form6_Main

Source for 2007 newborn screening: Test results were downloaded from the Perkins Elmer Genetics Lab and converted into a child-based data set. The last screening record was retained for analysis purposes.

. Column A & B data taken from the newborn screening records provided by laboratory. .

Columns C and D data are provided by Perinatal and Infant Health Bureau, Newborn Genetics Program.

Of the 15,131 children screened, 14,383 were linked to the 2007 birth file. In 2007, 881 occurred in out-of-state facilities. Of the population born in a DC birthing hospital (14,528) 97.9% newborns were screened for metabolic and genetic disorders.

Eligible for Title XIX	4,029	1,318	0	131	0	5	242	940

FORM NOTES FOR FORM 8

Information shown here on total deliveries and infants in state was obtained from the 2007 birth file, State Center for Health Statistics. Eligible for Title XIX taken from a Birth-Medicaid linked file of 2007 births.

Information on infants served taken from newborn screening data from a birth-Genetic screening linked file for 2007. Of the 15,131 screened children 14,383 newborns (95.1%) are linked with the birth file.

The District of Columbia is located in a tri-state area that includes the District, Maryland, Virginia. The District has a large number of non-residents born in DC hospitals, for example of the 15,752 births, 34% are Maryland residents and 10% are Virginia residents. Similarly, 914 of the DC resident newborns are out-of-state births.

FIELD LEVEL NOTES

1. Section Number: Form8_I. Unduplicated Count By Race

Field Name: DeliveriesTotal_All

Row Name: Total Deliveries in State

Column Name: Total All Races

Year: 2010

Field Note:

Overall 15,131 newborns were screened of the 15,752 births in the District of Columbia. Of the screened group 14,383 (95.1%) were linked with the 2007 birth file. DC is reporting linked data on this table because it provides richer information on race and ethnicity.

In addition, because the District is in a tri-state region with Maryland and Virginia there are many resident births occurring out-of-state along with many Maryland and Virginia births occurring in DC hospitals.

2. Section Number: Form8_I. Unduplicated Count By Race

Field Name: DeliveriesTitleV_All

Row Name: Title V Served

Column Name: Total All Races

Year: 2010

Field Note:

Overall 15,131 newborns were screened of the 15,752 births in the District of Columbia. Of the screened group 14,383 (95.1%) were linked with the 2007 birth file.

In addition, because the District is in a tri-state region with Maryland and Virginia there are many resident births occurring out-of-state along with many Maryland and Virginia births occurring in DC hospitals.

3. Section Number: Form8_I. Unduplicated Count By Race

Field Name: InfantsTotal_All

Row Name: Total Infants in State

Column Name: Total All Races

Year: 2010

Field Note:

Of the total District births, Maryland residents (33.8%) and Virginia residents (9.7%) constitute a sizeable 43.4% of all births in DC.

FORM NOTES FOR FORM 9

District calls are now routed to a centralized call center. This process will be under review so that maternal and child health calls can be tracked.

FIELD LEVEL NOTES

1. **Section Number:** Form9_Main

Field Name: hnumber_2

Row Name: State MCH toll-free hotline telephone number

Column Name: FY

Year: 2010

Field Note:

"311" is the District's Unified Call Center. If someone contacts that number they are connected to the proper person at DOH for information about MCH issues. However if someone does call 1-800-MOM BABY they are automatically directed to the call center. 1-800-MOM BABY still exists in another format. Mayor Fenty wished to consolidate the numerous numbers that were in existence. This not only reduces confusion it also reduces redundancy.

Title V has worked with the District's Unified Call Center to put into place a system to collect data on the number of calls that were made to the MCH toll free hotline. Unfortunately plans were unsuccessful in tracking calls for this grant application. However the call center will be initiating a new system to track calls that will supply this information in the future.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2010
[SEC. 506(A)(1)]
STATE: DC

1. State MCH Administration:
(max 2500 characters)

The Community Health Administration (CHA) oversees the Bureaus responsible for the oversight, management, planning, and evaluation of the Maternal and Child Title V Block Grant: Perinatal and Infant Health Bureau (PIHB), Child Adolescent School Health (CASH) Bureau, and the Nutrition and Physical Fitness Bureau. The two major changes with CHA are: 1) the reorganization of CHA with the absorption of the Special Health Care Needs Bureau and its activities to either CASH or the Perinatal and Infant Health Bureau. This change decreased the perceived "silo" effect among the Bureaus. It also allowed CHA to decrease personnel costs due to redundant activities among staff. The change arranges those programs such as Metabolic Screening or Epilepsy into the programmatic bureaus that support perinatal, infant and children and adolescent activities. The other change was the resignation of Dr. Cano in May 2009. Dr. Cano decided to pursue completion of a Master's degree in Public Management. Administrative positions within CHA include the hiring of Alvaro Simmons, M.ED, MSW, LSCW to lead the CASH Bureau, Lauren Ratner in Primary Care Bureau and Joanne Lynn, MD, Chronic Disease Bureau. A brief biography of Mr. Simmons is presented in the Overview section. A brief description of Dr. Lynn's biography is presented in Section D. CHA continues its goal to address maternal and child through providing comprehensive care before, during and after pregnancy and childbirth, providing prevention and primary care services to infants through adolescence, providing comprehensive care for children and adolescents with special health care needs, assuring access to care for all mothers and children, work to reduce infant mortality and working to meet the nutritional and developmental needs of mothers, children and families. CHA continues its efforts to expand parent and youth participation and cultural diversity in the CSHCN Advisory Board with an emphasis on male givers CHA continues its efforts to expand parent and youth participation and cultural diversity in the CSHCN Advisory Board with an emphasis on male givers. In 2010 it will emphasize youth violence prevention, secondary pregnancy prevention, and transition from pediatric to adult providers.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 7,067,825
3. Unobligated balance (Line 2, Form 2)	\$ 0

None

FIELD LEVEL NOTES

1. **Section Number:** Form10_Most significant providers receiving MCH funds

Field Name: ProviderFund1

Row Name:

Column Name:

Year: 2010

Field Note:

Pregnancy Prevention through Teen Empowerment, Georgetown University Hospital, Pregnancy Prevention program is designed to target at risk teen mother, improve self-sufficiency of mothers with cognitive and emotion/behavioral problems and subsequently reduce the number of second pregnancies. The program will help teen mothers re-enroll in school, secure mental health services as needed, and have an established medical home.

2. **Section Number:** Form10_Most significant providers receiving MCH funds

Field Name: ProviderFund2

Row Name:

Column Name:

Year: 2010

Field Note:

CNMC Healthy Generations Supporting Teen Parent Education program will seek to empower teen parents by assisting with education attainment through providing school-based services, enhanced Healthy Generations services, through building strong partnerships with public and charter schools as well as the Office of Youth Engagement. They also plan to partner with the DC Campaign to Prevent Teen Pregnancy to reestablish the Secondary Pregnancy Prevention Coalition to strengthen collaborations between community organizations to address the issues of teen pregnancy city wide.

3. **Section Number:** Form10_Most significant providers receiving MCH funds

Field Name: ProviderFund3

Row Name:

Column Name:

Year: 2010

Field Note:

The National Alliance to Advance Adolescent Health was chosen to develop a transition from pediatric to adult program along with The Department of Medicine at George Washington University Medical Center, The Department of Community and Family Medicine of Howard University Medical Center, Adams Morgan Children's Health Center, Mary's Center, HSCSN, Family Voices-DC, and our national partners at Healthy and Ready to Work and the Center for Medical Home. They will work closely with the CHA to provide leadership in implementing the core transition outcome to achieve continuity within the medical home model of care between the pediatric and adult health care systems. Our proposed transition goals to:

- 1) Identify, analyze, and reduce barriers affecting the provision of health care transition support services in pediatric and adult primary care practices
- 2) Obtain and synthesize information about evidence-based and promising approaches to forming a DC CQI model to address transition barriers and improve the availability, effectiveness, and financing of transition support services
- 3) Establish a health care transition resource center to provide DC YSHCN and families access to mentoring support, training opportunities, insurance information, resource materials, community linkages, and technical assistance.

4. **Section Number:** Form10_Most significant providers receiving MCH funds

Field Name: ProviderFund4

Row Name:

Column Name:

Year: 2010

Field Note:

The broad goal of the Edgewood/Brookland Collaborative is to address the complicated issues that promote gangs/crews and facilitate violence among young people in the city, with a specific focus on Cluster 21 within PSA 501. The social roots of violence are entrenched in individual, family, school, and community conditions associated with poverty, educational underachievement, lack of employability and life skills among youth, as well as exposure to violence, mental health and substance abuse. The likelihood that youth will engage in negative behaviors increases where large concentrations of youth with high-risk factors exist. Effective prevention recognizes youth violence as an expression of broader family, community, and cultural dynamics and requires a comprehensive, multi-dimensional response. This project will strengthen and enhance the collaborative network to prevent youth involvement in violence, particularly gang and crew activity, and address its root causes.

5. **Section Number:** Form10_The primary Title V Program contact person

Field Name: PrimaryContact

Row Name:

Column Name:

Year: 2010

Field Note:

Sandra Robinson interim deputy director of CHA will act as Title V director until a replacement is named for Dr. Nathaniel Beers.

6. **Section Number:** Form10_The CSHCN contact person

Field Name: CSHCNContact

Row Name:

Column Name:

Year: 2010

Field Note:

Last years realignment in DOH, coupled with the retirement of the CSHCN bureau chief, CHA made an effort to more fully serve the CSHCN population by reassigning staff to existing bureaus that perform similar tasks.

With Nathaniel Beers resigning the interim deputy director of CHA will act as Title V director and CSHCN director until a replacement is named.

FORM 11
TRACKING PERFORMANCE MEASURES
[SECS 485 (2)(2)(B)(iii) AND 486 (A)(2)(A)(iii)]
STATE: DC

Form Level Notes for Form 11

Numerator of 14,199 provided by AURIS newborn tracking system report of activities in CY 2008. Denominator of 14,500 provided by State Center for Health Statistics.

PERFORMANCE MEASURE # 01

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

<u>Annual Objective and Performance Data</u>					
	2004	2005	2006	2007	2008
Annual Performance Objective	100	100	100	100	98
Annual Indicator	100.0	NaN	100.0	100.0	86.0
Numerator	33	0	30	30	43
Denominator	33	0	30	30	50
Data Source					Newborn Screening Program
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Form11_Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2008

Field Note:

Realignment in CHA, as well as loss of some key personnel, left the program with less documentation than in previous years. The previous administration did not have procedures in place for properly storing or archiving data on follow-up of positive screens. There was also no way to reconstruct the missing data after the fact. Therefore precautions need to be in place now. CHA is looking into other data retrieval mechanisms as well as data storage mechanisms. One DOH employee will maintain the quality of the data and the data will be stored in a central location.

2. **Section Number:** Form11_Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2007

Field Note:

2007 data is not available at this time and will be updated.

CHA discovered previously that the wrong information was being entered from Form 6. This is noted and will be corrected in the future.

Field Level Notes**1. Section Number:** Form11_Performance Measure #6**Field Name:** PM06**Row Name:****Column Name:****Year:** 2008**Field Note:**

This is an interim year for the CSHCN survey and indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. The same questions were used to generate the NPM02 indicator for both the 2001 and the 2005-2006 CSHCN survey. The next survey is scheduled to begin in 2009.

2005/2006 Revisions & Changes:

In the 2005-2006 version of the NS-CSHCN, significant wording changes and new additions were made to the set of questions used to assess Transition to Adulthood. The result is an improved and more robust assessment of this important concept. The 2001 version of the outcome is based on CSHCN ages 13-17; the 2005/06 outcome is calculated for CSHCN ages 12-17. Take these changes into consideration when comparing results across survey years. See Additional Notes section below for more details.

Additional Notes:

The Transition to Adulthood summary measure is a composite score derived from two different subparts based on 8 different survey items. Technical expert panel review of the 2001 NS-CSHCN methods for assessing transition to adulthood led to significant revisions and additions to the 2005-2006 version of these questions. In particular, filter questions were added to identify CSHCN who needed the services being assessed and a new question was added to assess whether health care providers help CSHCN to take increasing responsibility for self-care.

2. Section Number: Form11_Performance Measure #6**Field Name:** PM06**Row Name:****Column Name:****Year:** 2007**Field Note:**

<u>Annual Objective and Performance Data</u>					
	2009	2010	2011	2012	2013
Annual Performance Objective	80	80	80	80	80
Annual Indicator					
Numerator	Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.				
Denominator					

Field Level Notes**1. Section Number:** Form11_Performance Measure #9**Field Name:** PM09**Row Name:****Column Name:****Year:** 2008**Field Note:**

Numerator : Reflects the number of 3rd graders who received a sealant.

Denominator: Reflects the number of eligible 3rd graders

This reporting period, 13 District of Columbia Public Schools were targeted to receive Oral Health Services. These Schools met the criteria that at least one-half of the student enrollment were eligible for free or reduced lunch program.

The number of eligible students are therefore eligible for the free lunch program and those who returned permission slips were included in oral health program.

2. Section Number: Form11_Performance Measure #9**Field Name:** PM09**Row Name:****Column Name:****Year:** 2007**Field Note:**

This reporting period, 6 District of Columbia Public Schools were targed to receive oral heath services (2 more than last year). These schools met the criteria that at least one-half of the student enrollment were eligible for the free or reduced lunch program. Therefore, the number of eligible students (including those who returned permission slips) and including those who used the service remained low. In addition, the schools served had overall small enrollment numbers for third grade classes. The denominator reflects the number of eligible 3rd graders; the numerator reflects the number 3rd graders who received a sealant.

In 2006 the denominator was the number of all eligible children. This caused the annual indicator to be much lower, and therefore was not used again in this reporting year.

It can be noted that DC's oral health program is expanding to provide services in all grades in participating elementary schools.

3. Section Number: Form11_Performance Measure #9**Field Name:** PM09**Row Name:****Column Name:****Year:** 2006**Field Note:**

This reporting period, only 4 District of Columbia Public Schools were targed to receive oral heath services. These schools met the criteria of at least one-half of the student enrollment were eligible for the free or reduced lunch program. Therefore, the number of eligible students (including those who returned permission slips) including those who used the service remained low.

PERFORMANCE MEASURE # 10

The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.

Annual Objective and Performance Data

Field Level Notes**1. Section Number:** Form11_Performance Measure #12**Field Name:** PM12**Row Name:****Column Name:****Year:** 2008**Field Note:**

2008 newborn hearing data was obtained from the AURIS database and reporting system. 14,199 screening occurred in 2008. Review of data in both 2007 and 2008 indicate that there are numerous duplicate child records in the system.

The program is working with the contractor is taking steps to eliminate or reduce the number of duplicate records in the system. After removing duplicate records it was found that the information system has data on reported screenings at levels similar to last year.

2008 Birth data is provided by State Center for Health Statistics and is their most recent estimate of all births in the District of Columbia.

2. Section Number: Form11_Performance Measure #12**Field Name:** PM12**Row Name:****Column Name:****Year:** 2007**Field Note:**

2007 newborn hearing data was obtained from the AURIS database and linked with the 2007 birth file. Not all birthing facilities have the resources to input directly into the information system.

The program obtains data directly from the hospitals and indicates that 14,995 tests were taken of children born in 2007. It is unclear what is the discrepancy between the data reported by the sites and the data inputted into the information system.

3. Section Number: Form11_Performance Measure #12**Field Name:** PM12**Row Name:****Column Name:****Year:** 2006**Field Note:**

2006 newborn hearing data has not been linked with the 2006 birth file yet.

PERFORMANCE MEASURE # 13

Percent of children without health insurance.

Annual Objective and Performance Data					
	2004	2005	2006	2007	2008

FORM NOTES FOR FORM 13

None

FIELD LEVEL NOTES

1. **Section Number:** Form13_Main
Field Name: Question1
Row Name: #1. Family members participate on advisory committee or task forces...
Column Name:
Year: 2010
Field Note:
The DC Children with Special Health Care Needs Advisory Board (CSHCN AB) is the collective voice of DC community leaders with the special focus on the health and wellness of children with special health care needs. The Advisory Board and its members share opinions and perspectives ultimately formulating recommendations to the DC Department of Health Community Health Administration (CHA). CHA makes policy overseeing the health care delivery of children with special needs and is receptive of the recommendations of this body

Family members are actively being recruited to take part in the advisory board. Their participation is crucial in ensuring that gaps in services to DC families are being identified. And their presence will help alert to programs needed.
2. **Section Number:** Form13_Main
Field Name: Question2
Row Name: #2. Financial support (...) is offered for parent activities or parent groups.
Column Name:
Year: 2010
Field Note:
In order to strengthen the advisory board, Title V included the need for technical assistance in their last year funding application. A local contractor was identified to perform an organizational assessment of the board to help increase their effectiveness to DOH and to DC in general.
3. **Section Number:** Form13_Main
Field Name: Question3
Row Name: #3. Family members are involved in the Children with Special Health Care Needs...
Column Name:
Year: 2010
Field Note:
This year was the first to actively include the CSHCN Advisory Board to review and comments on the block grant process.
4. **Section Number:** Form13_Main
Field Name: Question4
Row Name: #4. Family members are involved in service training of CSHCN staff and providers.
Column Name:
Year: 2010
Field Note:
Advisory Board members have been invited to trainings at DOH, and in the future we will explore brown bag type sessions from parents.
5. **Section Number:** Form13_Main
Field Name: Question5
Row Name: #5. Family members hired as paid staff or consultants to the State CSHCN program...
Column Name:
Year: 2010
Field Note:
DOH does not have the ability to hire parent professionals as staff members. However family members and parent professional are supported in different efforts such as membership/attendance at AMCHP or as facilitators at our MCH stakeholders meetings. This is a new endeavor which will be evaluated.
6. **Section Number:** Form13_Main
Field Name: Question6
Row Name: #6. Family members of diverse cultures are involved in all of the above activities
Column Name:
Year: 2010
Field Note:
The DC community is diverse and participation in the CSHCN activities are always open to their participation. Becoming more visible in DC will help the advisory board increase its diversity.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: DC FY: 2010

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Infrastructure Development, Population-based Services, and Direct Services: Improve oral health among children, youth and pregnant women.
2. Enabling Services: Reduce unintended pregnancies and teen births.
3. Enabling Services: Enhance nutrition and increase physical activity for children and youth.
4. Population-based Services: Decrease violence toward and by children and youth.
5. Infrastructure Development and Direct Services: Increase access to medical homes for CSHCN and support seamless systems of care.
6. Infrastructure Development: Improve MPCA capacity to collect, acquire, analyze and utilize program data and strengthen surveillance systems.
7. Direct Services: Provide STD screening and prevention services for adolescents.
8. Enabling Services: Decrease infant mortality.
9. Enabling Services: Improve school-based asthma management of children.
10. Population-Based Services: Decrease lead poisoning for children under six years of age.

FORM NOTES FOR FORM 14

DC Title V program is reluctant to change the MCH priorities at this time because the 5 year needs assessment is designed to do just that, create a list of new priorities based on an internal capacity assessment as a a community needs assessment/

TECHNICAL ASSISTANCE(TA) REQUEST

STATE: DC

APPLICATION YEAR: 2010

No.	Category of Technical Assistance Requested	Description of Technical Assistance Requested (max 250 characters)	Reason(s) Why Assistance Is Needed (max 250 characters)	What State, Organization or Individual Would You suggest Provide the TA (if known) (max 250 characters)
1.	State Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>1</u>	Developing strategies to evaluate child deaths in DC	Current reporting systems do not provide sufficient details to assist DOH in determining mitigation strategies	We would defer to HRFSA to suggest TA
2.	State Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>7</u>	Review existng initiatives and develop one statewide initiative to prevent teen pregnancies	Currently funding two initiatives and need asstance to create one statewide program	We would defer to HRFSA to suggest TA
3.	National Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>2</u>	Evaluating service and program capacity for children with special health care needs	Stakeholders forum mentioned DOH needed to meet the need for increased capacity for children with special health care needs. The TA is to evaluate for real versus perceived needs.	We would defer to HRFSA to suggest TA
4.	National Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>5</u>	Developing measures for DOH and collaborative members to gauge and increase parent self-advocacy.	One current mechanism is needed rather than addressing the problem through two mechanisms	We would defer to HRFSA to suggest TA
5.	National Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>4</u>	Develop an implementation strategy for the Katy Beckett waiver for emergency care funding to DC residents	Currently no self-sufficiency mechansims are in place to increase parental support.	We would defer to HRFSA to suggest TA
6.	Data-related Issues - Data Systems Development If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>N/A</u>	Identifying and developing data integration strategies	Current systems are not feasible for data integration. A further look into linking CHA data systems is requested.	We would defer to HRFSA to suggest TA
7.	Other If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>N/A</u>	Developing a model state interagency agreement between Title V and Title XIX	DHCF (formerly Medicaid) was established as a separate agency. TA will facilitate data collection and data sharing thorough district MOU development.	We would defer to HRFSA to suggest TA
8.	Other If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u>N/A</u>	Evaluating current methods to decreas youth violence	Need assistance to evaluate a public health perspective to decrease youth violence	We would defer to HRFSA to suggest TA
9.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____			
10.	If you selected State or National Performance Measure Issue			

	categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____			
11.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: _____

Active

GOAL

To increase children's participation in and receipt of EPSDT screening services

DEFINITION

Participant ratio as defined in 416 report to CMS

Numerator:

Number of Medicaid eligible beneficiaries under age 21 who received at least one initial or periodic screening service

Denominator:

Number of Medicaid eligible beneficiaries under age 21 who should receive at least one initial or periodic screening service in FY

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

The state Medicaid agency is required to submit the 416 report to CMS annually. The participation ratio reflects adjustments based on EPSDT periodicity schedule.

SIGNIFICANCE

Low participation affects opportunities to correct many health problems and thus contributes to prevalence of children with special need.

SP # 3

PERFORMANCE MEASURE:

Prevalence of lead levels > 10 ug/dL among children through age 6

STATUS:

Active

GOAL

To reduce/control effects of exposure to lead and resulting irreversible neurological damage

DEFINITION

DC measure reflects recent changes in CDC recommendations re: exposure.

Numerator:

Number of children screened in the FY who have at least one positive test result.

Denominator:

Number of children screened at least once

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

DC CLPPP lead registry Prevalence estimates are not currently population based. Installation of an automated system will provide data to estimate coverage of testing and excess exposure rates.

SIGNIFICANCE

Most DC inner city children are at high risk of exposure due to older housing stock. Exposure may result in irreversible damage.

SP # <u>4</u>	
PERFORMANCE MEASURE:	Prevalence of tobacco use among pregnant women
STATUS:	Active
GOAL	To reduce the adverse effects of tobacco on pregnant women and their fetuses
DEFINITION	<p>Numerator: Number of women reported on birth certificates as using tobacco during pregnancy</p> <p>Denominator: Number of live births in calendar year</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	SCHS - state birth certificate file The birth certificate data on tobacco use probably results in gross under-reporting.
SIGNIFICANCE	The adverse effect of tobacco on pregnancy and birth outcomes is well-known.

SP # 6

PERFORMANCE MEASURE:

Percent of resident women who give birth with no prenatal care or entry into prenatal care in 3rd trimester

STATUS:

Active

GOAL

to improve maternal health and birth outcomes

DEFINITION

Percent of resident women who give birth with no prenatal care or entry into prenatal care in 3rd trimester

Numerator:

number of annual resident births for which birth certificate recorded no prenatal care or entry into prenatal care in 3rd trimester

Denominator:

total annual resident births for which trimester of entry is known

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

birth certificate/ birth file. In DC there is a high proportion of missing data for trimester of entry.

SIGNIFICANCE

No or late entry prenatal care subjects the mother and infant to an array of adverse outcomes, including HIV infection, drug exposure and maternal and infant death.

SP # <u>7</u>	
PERFORMANCE MEASURE:	Incidence of repeat births for teens less than 19 years of age
STATUS:	Active
GOAL	to reduce the teen birth rate
DEFINITION	<p>Numerator: number of annual births to women less than 19 years of age not first birth</p> <p>Denominator: number of annual births to women less than 19 years of age</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	birth certificates/birth file
SIGNIFICANCE	Early child bearing may contribute to poor spacing of pregnancies and multiple pregnancies, which lead to adverse maternal and infant outcomes.

SP # 8

PERFORMANCE MEASURE:

Percentage of high school students who were in a physical fight one or more times during the past 12 months

STATUS:

Active

GOAL

To decrease physical violence toward and by youth

DEFINITION

Percentage of high school students who were in a physical fight one or more times during the past 12 months as measured by item on Youth Risk Behavior Survey

Numerator:

Estimate provided by CDC DASH based on YRBS results; number of yes responses to questionnaire item

Denominator:

Estimate provided by CDC DASH based on YRBS results; weighted number of respondents

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

15-38. Reduce physical fighting among adolescents

DATA SOURCES AND DATA ISSUES

YRBS Biennial Survey; out-of-school youth and private school students are not included.

SIGNIFICANCE

This is both a national and a DC Healthy People 2010 objectives. It is a priority need for MFHA.

SP # 9

PERFORMANCE MEASURE:

Percent of preterm births

STATUS:

Active

GOAL

to reduce infant mortality and morbidity

DEFINITION

obstetrical estimate of gestational age < 37 weeks as recorded on the birth certificate

Numerator:

number of live births with estimated gestational age < 37 weeks

Denominator:

number of live births

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16-11 Reduce preterm births

DATA SOURCES AND DATA ISSUES

annual birth file NCHS suggests that estimated gestational age data is subject to reliability issues.

SIGNIFICANCE

The vast majority of lbw and vlbw births are preterm. Prematurity is the leading cause of those neonatal deaths not associated with birth defects. Reduction in preterm delivery holds the greatest promise for overall reduction in infant illness, disability, and death. Preterm birth is associated with a number of modifiable risk factors, including the use of alcohol, tobacco, or other drugs during pregnancy and low prepregnancy weight or low weight gain during pregnancy. Other important risk factors for preterm birth are vaginal infections and domestic violence.

SO # <u>1</u>	
OUTCOME MEASURE:	Rate of confirmed deaths due to SIDS, average for 3-year period
STATUS:	Active
GOAL	to reduce number of SIDS deaths and, in turn, the IMR
DEFINITION	<p>Numerator: number of investigated and confirmed DC resident SIDS deaths. Numerator is number of SIDS deaths in that calendar year.</p> <p>Denominator: number of live births in calendar year.</p> <p>Units: 1000 Text: Rate</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	death certificates/death file Coding and diagnoses issues have been discussed in the literature.
SIGNIFICANCE	Many SIDS deaths are preventable, and their reduction will affect the postnatal mortality rate in DC.

FORM NOTES FOR FORM 16

None

FIELD LEVEL NOTES

None

FORM 17
HEALTH SYSTEMS CAPACITY INDICATORS
FORMS FOR HSCI 01 THROUGH 04, 07 & 08 - MULTI-YEAR DATA
STATE: DC

Form Level Notes for Form 17

The District no longer has a clinical program for CSHCN.

HEALTH SYSTEMS CAPACITY MEASURE # 01

The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 -493.9) per 10,000 children less than five years of age.

	Annual Indicator Data				
	2004	2005	2006	2007	2008
Annual Indicator	<u>34.0</u>	<u>34.4</u>	<u>45.3</u>	<u>45.3</u>	<u>45.3</u>
Numerator	<u>119</u>	<u>121</u>	<u>161</u>	<u>161</u>	<u>161</u>
Denominator	<u>35,029</u>	<u>35,175</u>	<u>35,513</u>	<u>35,513</u>	<u>35,513</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

c) <i>Pregnant Women</i>	2008	300

FORM NOTES FOR FORM 18

None

FIELD LEVEL NOTES

1. Section Number: Form18_Indicator 05

Field Name: LowBirthWeight

Row Name: Percent of ow birth weight (<2,500 grams)

Column Name:

Year: 2010

Field Note:

Information taken from a 2007 Birth-Medicaid linked file.

The percent of low birth weight in 2006 was the same in 2007 (11.2%).

There was a slightly lower Medicaid percentage in 2006 (13%) and a slightly higher non-medicaid percentage in 2006 (10.3%).

2. Section Number: Form18_Indicator 05

Field Name: InfantDeath

Row Name: Infant deaths per 1,000 live births

Column Name:

Year: 2010

Field Note:

The infant death file for 2007 has 116 children. Because linked data is being used to make comparisons of the two groups, only children in the Infant death file that could be linked with the birth-Medicaid linked file are included. (Excluded were newborns born in 2006 or born in another state and not original residents.) Because of this approach, a cohort infant mortality rate is calculated, giving an overall result that is lower (11.9 per 1,000) than the rate calculated by the traditional methods (13.1 per 1,000).

For the Medicaid group 88 deaths/5,366 Medicaid births as compared to the Non-Medicaid group of 18 deaths/3,506 births. Overall, 106 deaths/8,872 births resulted in a 11.9 rate per 1,000 births.

This was slightly higher than 2006, when the rate was 11.3%

3. Section Number: Form18_Indicator 05

Field Name: CareFirstTrimester

Row Name: Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester

Column Name:

Year: 2010

Field Note:

Information taken from a 2007 Birth-Medicaid linked file.

In 2006 the population percentage of babies born to women receiving PNC in the first trimester was 75%. This was slightly lower in 2007 (73%).

The percentage among the Medicaid population was lower in 2007 than 2006 and the percentage in the non medicaid population was higher in 2007 than 2006.

4. Section Number: Form18_Indicator 05

Field Name: AdequateCare

Row Name: Percent of pregnant women with adequate prenatal care

Column Name:

Year: 2010

Field Note:

Information taken from a 2007 Birth-Medicaid linked file.

In 2006 the total percent was 55.9%. This increased to 73% in 2007.

There was an increase in both medicaid and non medicaid percents.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: DC

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	3	Yes
Annual linkage of birth certificates and WIC eligibility files	3	Yes
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	2	Yes
Annual birth defects surveillance system	2	Yes
Survey of recent mothers at least every two years (like PRAMS)	1	No

*Where:

- 1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: DC

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other:		

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

Over the last three years, the District has been linking data, and providing input into the Title V Information System (TVIS). Initially, matching and linking data was conducted by developing matching programs in MS Access. However, in the last two years, the program is using Link Plus, a CDC developed linking software developed to serve cancer program requirements. Link Plus is a far more efficient and systematic approach than has been used before. The probabilistic software is relatively easy to use, and produces better results than manual and deterministic approaches used in the past.

FIELD LEVEL NOTES

- 1. Section Number:** Form19_Indicator 09A
Field Name: BAD
Row Name: Annual linkage of infant birth and infant death certificates
Column Name:
Year: 2010
Field Note:
The State Center for Health Statistics prepares an annual infant death file for the District of Columbia for development of materials on infant deaths.
- 2. Section Number:** Form19_Indicator 09A
Field Name: BAW
Row Name: Annual linkage of birth certificates and WIC eligibility files
Column Name:
Year: 2010
Field Note:
WIC data was linked with the birth file in 2000 and 2006.
- 3. Section Number:** Form19_Indicator 09A
Field Name: BAN
Row Name: Annual linkage of birth certificates and newborn screening files
Column Name:
Year: 2010
Field Note:
The District now links Metabolic/Genetics data with the birth file. Linked files have been created in 2000, 2006, and 2007.
- 4. Section Number:** Form19_Indicator 09A
Field Name: Discharge
Row Name: Hospital discharge survey for at least 90% of in-State discharges
Column Name:
Year: 2010
Field Note:
DC has a discharge survey prepared by the District's hospital association.
- 5. Section Number:** Form19_Indicator 09A
Field Name: BirthDefects
Row Name: Annual birth defects surveillance system
Column Name:
Year: 2010
Field Note:
The Electronic Birth Record System (EBRS) will identify babies at risk or diagnosed with birth defects at the time of delivery. A pilot was launched in February 2009, and full implementation began in April 2009. The Perinatal and Infant Health Bureau (PIHB) will have access to the data to review the records and schedule home visits for all babies at risk of a developmental delay. CHA is working on providing access to the EBRS by PIHB staff as well as the CHA data staff.
- 6. Section Number:** Form19_Indicator 09A
Field Name: RecentMother
Row Name: Survey of recent mothers at least every two years (like PRAMS)
Column Name:
Year: 2010
Field Note:
CHA is working on rebuilding this capacity. CHA staff has visited the Maryland PRAMS program to learn more about this activity. The program must decide whether to submit a PRAMS application to CDC or develop a PRAMS-like survey.

It is expected to be a population based risk factor surveillance system identify selected maternal behaviors that occur before and during pregnancy including access to prenatal care, use of alcohol and tobacco during pregnancy.
- 7. Section Number:** Form19_Indicator 09B
Field Name: YRBSS_09B
Row Name: Youth Risk Behavior Survey (YRBS)
Column Name:
Year: 2010
Field Note:
YRBS data collection has been moved from DC Public Schools to the Office of the State Superintendent of Education (OSSE).
Dr. Nathaniel Beers has been working with them to review questions that CHA would benefit from having in the survey. The published data is used by CHA to identify trends among children and adolescents.
- 8. Section Number:** Form19_Indicator 09A
Field Name: BAM
Row Name: Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files
Column Name:
Year: 2010
Field Note:
The District now prepares an annual Birth-Medicaid linked file for making comparisons between Medicaid and Non-Medicaid populations. The two files are linked using Link Pro, a CDC-sponsored linking software. CHA now has linked files for 2000, 2006, and 2007.

FORM 20
HEALTH STATUS INDICATORS #01-#05
MULTI-YEAR DATA
STATE: DC

Form Level Notes for Form 11

None

HEALTH STATUS INDICATOR MEASURE # 01A

The percent of live births weighing less than 2,500 grams.

	<u>Annual Indicator Data</u>				
	2004	2005	2006	2007	2008
Annual Indicator	11.1	8.5	9.0	11.1	11.1
Numerator	877	674	769	989	989
Denominator	7,919	7,940	8,522	8,870	8,870

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Field Level Notes

1. **Section Number:** Form20_Health Status Indicator #01A

Field Name: HSI01A

Row Name:

Column Name:

Year: 2008

Field Note:

There is a 2-year lag period in the District for reporting birth and death data. Data for 2008 will be available in 2010. 2007 data is reported here.

2. **Section Number:** Form20_Health Status Indicator #01A

Field Name: HSI01A

Row Name:

Column Name:

Year: 2007

Field Note:

Source: The District of Columbia State Center for Health Statistics 2007 Birth File.

The denominator: Out of the 8870 live births, only 8862 had birthweights recorded, and 8 infants w/o recorded birthweights. Those eight were coded as 9999 for missing.

3. **Section Number:** Form20_Health Status Indicator #01A

Field Name: HSI01A

Row Name:

Column Name:

Year: 2006

Field Note:

Data will be updated when final 2006 birth file becomes available.

HEALTH STATUS INDICATOR MEASURE # 01B

The percent of live singleton births weighing less than 2,500 grams.

		Annual Indicator Data			
	2004	2005	2006	2007	2008
Annual Indicator	<u>9.3</u>	<u>7.0</u>	<u>7.7</u>	<u>9.3</u>	<u>9.3</u>
Numerator	<u>710</u>	<u>535</u>	<u>635</u>	<u>796</u>	<u>796</u>
Denominator	<u>7,633</u>	<u>7,636</u>	<u>8,198</u>	<u>8,543</u>	<u>8,543</u>
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)					
Is the Data Provisional or Final?				Final	Provisional

Field Level Notes**1. Section Number:** Form20_Health Status Indicator #01B**Field Name:** HSI01B**Row Name:****Column Name:****Year:** 2008**Field Note:**

There is a 2-year lag period in the District for reporting birth and death data. Data for 2008 will be available in 2010. 2007 data is reported here.

2. Section Number: Form20_Health Status Indicator #01B**Field Name:** HSI01B**Row Name:****Column Name:****Year:** 2007**Field Note:**

Source: The District of Columbia State Center for Health Statistics 2007 Birth File.

The numerator reflects that n=796 live singleton births weighing <2,500 grams.

The denominator (n=8543) accounts for the number of live singleton births.

3. Section Number: Form20_Health Status Indicator #01B**Field Name:** HSI01B**Row Name:****Column Name:****Year:** 2006**Field Note:**

Data will be updated when final 2006 birth file becomes available.

HEALTH STATUS INDICATOR MEASURE # 02A

The percent of live births weighing less than 1,500 grams.

	Annual Indicator Data				
	2004	2005	2006	2007	2008
Annual Indicator	2.8	2.7	2.5	2.9	2.9
Numerator	220	214	217	258	258
Denominator	7,919	7,940	8,522	8,870	8,870
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)

36. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2010
Field Note:
The data for this measure come from the 2000 and 2001 Supplementary Survey and the 2002 through 2007 American Community Survey (ACS). The 2000 through 2004 ACS surveyed approximately 700,000 households monthly during each calendar year. In general but particularly for these years, use caution when interpreting estimates for less populous states or indicators representing small subpopulations, where the sample size is relatively small. Beginning in January 2005, the U.S. Census Bureau expanded the ACS sample to 3 million households (full implementation), and in January 2006 the ACS included group quarters. The ACS, fully implemented, is designed to provide annually updated social, economic, and housing data for states and communities. (Such local-area data have traditionally been collected once every ten years in the long form of the decennial census.)
Single-parent families may include cohabiting couples and do not include children living with stepparents. Children who live in group quarters (for example, institutions, dormitories, or group homes) are not included in this calculation.
37. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2010
Field Note:

42. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2010
Field Note:
Source: Metropolitan Police Department
Washington, DC
Criminal Justice Information System (CJIS) Data
Queried Juvenile Arrest by Race and Ethnicity for CY 2008

Note: due to small numbers an numbers are used here.

Source for non-homicide arrest data: Criminal Justice Information System (CJIS) data as of 5/05/09. Totals are based solely on the top arrest charge. One person may be booked on more than one arrest charge. Excludes arrests for which no location could be identified (between 1 and 3% of all arrests).

Please note that changes to MPD's PSA and District boundaries occasionally occur. The statistics above are based on current police boundaries as of September 2, 2007.

²Source for homicide data: Homicide and Sexual Offenses Branch (HSOB) as of 5/05/09.

³For the purposes of the CJIS Arrest Report, the term "juvenile" used above is defined as individuals under the age of 18 years (= 17 years of age). These "juvenile" totals may include Title 16 cases where juveniles are tried as adults.

The above non-homicide arrests reflect arrests made by all agencies in the District of Columbia.

The data for this measure come from the 2000 and 2001 Supplementary Survey and the 2002 through 2007 American Community Survey (ACS). The 2000 through 2004 ACS surveyed approximately 700,000 households monthly during each calendar year. In general but particularly for these years, use caution when interpreting estimates for less populous states or indicators representing small subpopulations, where the sample size is relatively small. Beginning in January 2005, the U.S. Census Bureau expanded the ACS sample to 3 million households (full implementation), and in January 2006 the ACS included group quarters. The ACS, fully implemented, is designed to provide annually updated social, economic, and housing data for states and communities. (Such local-area data have traditionally been collected once every ten years in the long form of the decennial census.)
Single-parent families may include cohabiting couples and do not include children living with stepparents. Children who live in group quarters (for example, institutions, dormitories, or group homes) are not included in this calculation.
46. **Section Number:** Form21_Indicator 09B
Field Name: HSIEthnicity_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2010
Field Note:
Total TANF enrollment as of December 31, 2008. Data provided by the District of Columbia Health Care Policy and Planning Administration. Please note that SCHIP data is not currently available by race/ethnicity
47. **Section Number:** Form21_Indicator 09B
Field Name: HSIEthnicity_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2010
Field Note:
Total Medicaid enrollment as of December 31, 2008. Data provided by the District of Columbia Health Care Policy and Planning Administration. Please note that SCHIP data is not currently available by race/ethnicity
48. **Section Number:** Form21_Indicator 09B
Field Name: HSIEthnicity_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2010
Field Note:
Total SCHIP enrollment as of December 31, 2008. Data provided by the District of Columbia Health Care Policy and Planning Administration. Please note that SCHIP data is not currently available by race/ethnicity
49. **Section Number:** Form21_Indicator 09B
Field Name: HSIEthnicity_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2010
Field Note:
Source: Supplemental Nutrition Assistance Program: Number of Persons Participating by State- January 2009

URL: <http://www.fns.usda.gov/pd/29SNAPcurrPP.htm>
Accessed: May 6, 2009
50. **Section Number:** Form21_Indicator 09B
Field Name: HSIEthnicity_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2010
Field Note:
Source: 2007 The Pregnancy Nutrition Surveillance System (PNSS) for the District of Columbia. This number reflects the 2007 enrollment for infants and children.
51. **Section Number:** Form21_Indicator 09B
Field Name: HSIEthnicity_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2010
Field Note:
Source: Metropolitan Police Department
Washington, DC
Criminal Justice Information System (CJIS) Data
Queried Juvenile Arrest by Race and Ethnicity for CY 2008

Source for non-homicide arrest data: Criminal Justice Information System (CJIS) data as of 5/05/09. Totals are based solely on the top arrest charge. One person may be booked on more than one arrest charge. Excludes arrests for which no location could be identified (between 1 and 3% of all arrests).

Please note that changes to MPD's PSA and District boundaries occasionally occur. The statistics above are based on current police boundaries as of September 2, 2007.

²Source for homicide data: Homicide and Sexual Offenses Branch (HSOB) as of 5/05/09.

³For the purposes of the CJIS Arrest Report, the term "juvenile" used above is defined as individuals under the age of 18 years (= 17 years of age). These "juvenile" totals may include Title 16 cases where juveniles are tried as adults.

The above non-homicide arrests reflect arrests made by all agencies in the District of Columbia.

52. Section Number: Form21_Indicator 09B

Field Name: HSIEthnicity_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2010

Field Note:

Source: The District of Columbia Public Schools Student and Tracking Reporting System (STARS) 2007-2008. Please note that currently the STARS data system does not have the option, "more than one race" or "Hawaiian/Pacific Islander not separated out."
